Using an amalgam of traditional woodworking techniques and cutting-edge technology, the Stax stool emerges as a beautiful piece of solid wood furniture. The ovoid mitered corners at the stool apex provide a unique aesthetic detail and transition to a gentle curve of the continuous wood grain backrest.

The removable slung seat, available in both fabric and leather, provides an exceptionally comfortable sit. A timeless alternative to the seat upholstery is a durable weave of webbing that accentuates the simplicity of structure. Suitable for both residential and contract use the stool is available in both bar and counter heights.
